PROFESSIONAL SUMMARY

Full Stack Developer passionate about building impactful web and mobile applications. Skilled in creating scalable, intuitive solutions that improve user experience and streamline business processes using modern technologies.

SKILLS

JavaScript, React.js, React Native, Node.js, Express.js, Laravel, MongoDB, SQL, HTML5, CSS, APIs, Git, Unit Testing, AWS, Software Development

PROFESSIONAL EXPERIENCE

- Full Stack Developer

Storeino, Agadir — Oct 2024 – Apr 2025

- Integrated custom themes into existing systems for seamless user experience.
- Developed scalable **RESTful APIs** to optimize performance.
- Built full-stack solutions using React.js, Vue.js, React Native, Node.js, Express.js, and MongoDB.

- Backend Developer Intern

Geoap, Remote — 08/2024 – 09/2024

- Developed a secure, scalable backend API for the **Geoap Academy** platform using Node.js, Express.js, and MongoDB, implementing authentication, authorization, and writing clean, maintainable code.

- Cabinet Medical Website (**Final Year Project**)

- Built a full-stack medical appointment platform with **React.js** frontend and **Node.js/Express.js** backend, powered by **MongoDB**. Collaborated in a team environment to design, develop, and deploy key features, strengthening real-world full-stack development skills.

TECHNICAL SOLUTIONS DEVELOPED

- Profit & Cost Simulation Web App
 - Built a web-based simulator to help sellers calculate profit and costs across various stages.
- Offline Mobile App for Cooperative Associations
 - Developed a mobile app to collect and analyze data offline for cooperatives.
- E-commerce Web App with Geo-IP Currency Conversion
 - Created an app that dynamically converts product prices to local currency based on user IP.
