

RACHID HEROUMTI

Full Stack Developer

@ rachidheroumti0@gmail.com <https://rachid-heroumti.onrender.com/>

Agadir, Morocco

SUMMARY

Passionate Junior Full Stack Developer with hands-on experience in building dynamic and responsive web applications. Proficient in modern technologies including React.js, Node.js, Express.js, Spring Boot, Laravel, and MongoDB, SQL, as well as TypeScript and Next.js for robust and maintainable code. Skilled in integrating secure payment solutions and optimizing performance to enhance user experience. A collaborative team player with a solid foundation in both frontend and backend development, eager to contribute and grow within a professional environment.

PROJECTS/EXPERIENCES

Cabinet Medical website(PFE) 02/2024 - 06/2024

Developed with React.js for the frontend and Node.js, Express.js for the backend, using MongoDB for database management. Worked in a team to enhance frontend and backend skills and contributed significantly.

SpringBoot| ECO-Store API Date period

I developed a comprehensive e-commerce store API using Spring Boot, Java, and MySQL, featuring integrated payment gateway support. The API includes full authentication and authorization, secured with Spring Security and JWT tokens, ensuring secure and stateless access control for registered users. This project demonstrates my expertise in Java, Spring Boot, advanced security features, and payment gateway integration.

Eco-Store Website 08/2023 - 12/2023

Created a complete online store with Node.js, Express.js, and MongoDB. Utilized React.js and Tailwind CSS for a responsive design, integrating Stripe and PayPal for secure payments.

Articles-Web Api| SpringBoot 06/2024 - 07/2024

I developed a complete Online Articles Website API using Spring Boot with Java and MySQL. It includes full authentication and authorization features using Spring Security with JWT tokens. This ensures secure and stateless access control for registered users. The project highlights my skills in Java, Spring Boot, and implementing advanced security features.

Online Bookstore 01/2024 - 02/2024

Built with TypeScript and Next.js, using MySQL for the database. Features smooth navigation, book search, shopping cart management, and secure payment, ensuring robust and maintainable code with optimized performance.

SKILLS

FRONTEND : · Html/Css · ReactJs ·

Next.js · Tailwinds/Bootstrap ·

JavaScript/TypeScript

BACKEND : · NodeJS/ExpressJs ·

Laravel/php · SpringBoot

MOBILE: · java/Kotlin · Android Studio

Other : · c/c++/php · Git · Unit Testing
