SUMMARY

Passionate Junior Full Stack Developer with hands-on experience in building dynamic and responsive web applications. Proficient in modern technologies including React.js, Node.js, Express.js, Spring Boot, and MongoDB,SQL, as well as TypeScript and Next.js for robust and maintainable code. Skilled in integrating secure payment solutions and optimizing performance to enhance user experience. A collaborative team player with a solid foundation in both frontend and backend development, eager to contribute and grow within a professional environment.

PROJECTS/EXPERIENCES

Internship Experience at Storeino:
10/2024 - Present

During my internship at Storeino, I worked on designing comprehensive themes using **Vue.js** and **Tailwind CSS** for the company's platforms (Atlas and Prestige). I was responsible for integrating these themes into the application, ensuring a seamless user interface and consistent design, while utilizing the same technologies for both the front-end development and theme integration

Internship Experience at Geoap
09/2024 - 10/2024

During my internship at Geoap, I developed a complete backend API for the Geoap Academy platform using **Node.js**, **Express.js**, and **MongoDB** (with **Mongo Atlas** for data storage). I implemented full authentication and authorization systems, ensuring secure access and data integrity. Throughout the project, I focused on writing clean, maintainable code and adhering to best practices for scalability and performance.

Cabinet Medical website(PFE)
02/2024 - 06/2024

Developed with React.js for the frontend and Node.js, Express.js for the backend, using MongoDB for database management. Worked in a team to enhance frontend and backend skills and contributed significantly.
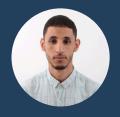

Eco-Store Website
08/2023 - 12/2023

Created a complete online store with Node.js, Express.js, and MongoDB. Utilized React.js and Tailwind CSS for a responsive design, integrating Stripe and PayPal for secure payments.

SpringBoot| ECO-Store API
08/2024

I developed a comprehensive e-commerce store API using Spring Boot, Java, and MySQL, featuring integrated payment gateway support. The API includes full authentication and authorization, secured with Spring Security and JWT tokens, ensuring secure and stateless access control for registered users. This project demonstrates my expertise in Java, Spring Boot, advanced security features, and payment gateway integration.

SKILLS

FRONTEND : · Html/Css · ReactJs · Vue js NextJs · Tailwinds/Bootstrap · JavaScript/TypeScript

BACKEND : · NodeJS/ExpressJs · Laravel/php · SpringBoot

MOBILE: · java/Kotlin · Android Studio

Other : · c/c++/php · Git · Unit Testing
